Pediatrics Intensivist (MD Pediatrics)

Hiring organization

Mediversal Hospital

Date posted

March 9, 2024

Description

Mediversal Multi Super Specialty Hospital is currently seeking a dedicated and highly skilled Pediatrics Intensivist to join our esteemed team of healthcare professionals. As a Pediatrics Intensivist, you will play a critical role in providing specialized care to critically ill infants, children, and adolescents in our pediatric intensive care unit (PICU).

Responsibilities

- **Critical Care Management:** Provide expert medical care to critically ill pediatric patients in the PICU, including the diagnosis, treatment, and management of complex medical conditions.
- **Multidisciplinary Team Collaboration:** Work closely with a multidisciplinary team of healthcare professionals, including nurses, respiratory therapists, and pharmacists, to provide comprehensive care to critically ill children.
- **Ventilation and Life Support:** Manage advanced respiratory support, including mechanical ventilation and non-invasive ventilation, as well as other life support interventions such as extracorporeal membrane oxygenation (ECMO).
- **Hemodynamic Monitoring:** Perform and interpret hemodynamic assessments, including invasive monitoring, to guide the management of cardiovascular conditions in critically ill children.
- **Diagnostic Procedures:** Conduct and interpret a variety of diagnostic procedures, such as arterial and central line placements, lumbar punctures, and bronchoscopies, to aid in the diagnosis and treatment of patients.
- **Medication Management:** Prescribe and administer appropriate medications, including vasoactive drugs, sedatives, and analgesics, while closely monitoring their effects and potential adverse reactions.
- **Family Communication and Support:** Effectively communicate with the families of critically ill children, providing updates on their condition, discussing treatment options, and offering support and counseling during challenging times.
- **Quality Improvement and Research:** Contribute to quality improvement initiatives and participate in research activities to advance pediatric critical care medicine and improve patient outcomes.

Qualifications

1. Medical degree (MD) with specialization in Pediatrics and additional fellowship training in Pediatric Critical Care Medicine.
2. Valid license to practice medicine and board certification in Pediatrics and

Pediatric Critical Care Medicine.

3. Proficient knowledge and clinical expertise in the management of critically ill pediatric patients, including advanced respiratory and cardiovascular support.
4. Excellent communication and interpersonal skills to effectively interact with patients, their families, and the healthcare team.
5. Compassion, empathy, and the ability to provide support and comfort to families during challenging times.
6. Strong decision-making skills in high-pressure situations and the ability to adapt to rapidly changing circumstances.
7. Commitment to ongoing professional development and staying updated with the latest research and advancements in pediatric critical care medicine.
8. Ability to work collaboratively in a team-oriented environment.

Job Benefits

We offer a competitive salary package, comprehensive benefits, and a supportive work environment focused on patient care and professional growth. If you are passionate about pediatric critical care and dedicated to providing high-quality medical care to critically ill children, we invite you to join our team of exceptional Pediatrics Intensivists.
