Head of Department (HOD) – Emergency Doctor

Hiring organization

Mediversal Hospital

Description

Job Summary:

Date posted

May 22, 2023

The Head of Department (HOD) – Emergency Doctor is a senior-level position responsible for overseeing and coordinating the emergency department's operations in a healthcare facility. The HOD – Emergency Doctor leads a team of emergency medicine professionals, sets departmental goals, ensures quality patient care, and collaborates with other departments to optimize emergency services. This role requires strong clinical skills, leadership abilities, and a deep understanding of emergency medicine practices and protocols.

Responsibilities

- Leadership and Management
- Clinical Oversight
- Emergency Department Operations
- Quality Assurance and Performance Improvement:
- Collaboration and Communication
- Commitment to patient-centered care, quality improvement, and evidence-based practice.

Qualifications

- Medical degree (MD or equivalent) from an accredited institution.
- Board certification in Emergency Medicine or equivalent qualification.
- Several years of clinical experience in emergency medicine, including leadership roles.
- Strong knowledge of emergency medicine practices, protocols, and standards of care.
- Excellent leadership, managerial, and organizational skills.
- Effective communication and interpersonal abilities.
- Ability to make critical decisions under pressure and in emergency situations.
- Familiarity with healthcare regulations, quality assurance, and patient safety practices.
- Proficiency in using electronic medical records (EMR) and other healthcare technologies.

Job Benefits

This position requires extensive medical expertise, leadership skills, and a strong commitment to providing high-quality emergency care. The HOD works collaboratively with other department heads and administrators to ensure efficient operations, adherence to protocols, and the delivery of excellent patient care.
